## MIRROR

W00527

This striking oval mirror is framed in hammered metal which is finished in a lightly distressed gold leaf that radiates warmth and sophistication. The bright gold tone feels fresh and luminous, while subtle distressing adds depth and character for a refined, artisan look. The gently concave profile of the frame creates a beautiful play of light across its surface. As the gold leaf curves inward, the coloring shifts slightly-appearing richer and deeper in the recessed areas and more radiant along the edges. Organic yet elegant, this mirror brings a tailored glamour to entryways, powder rooms and living spaces. May be hung either vertically or horizontally.
