MIRROR

W00657

A refined blend of artistry and elegance, this wall mirror transforms a classic silhouette into a statement piece. Crafted from iron and finished in a warm gold leaf with subtle antiquing, the frame exudes a softly aged patina that brings depth and character to its luminous surface. The gently contoured edges create a fluid, organic shape, while each corner is beautifully accented with sculptural leaf appliques. These decorative elements introduce dimension and visual interest without overpowering the mirror's clean, graceful lines.
